

Make Sure
By Andrew Sullivan - 2011

It seems like everyday, everything just has a way
has a way to burst at the seams
and if we don't *watch* what we're doing
Our hearts could get ruined by silly things

good love aint easy, girl we know that's true
But if we wanna keep it we gotta watch everything we do yeah yeah

Chorus

I want to make sure my baby
make sure that you're stickin with me
I want to make sure that we're being all that we could be
all we could be

it seems like sometimes when we build it up, we tear it down
can't seem to find the space in between
but with our *hearts* we can do it
our love can push through anything
