

"Stay the Same"
By Andrew Sullivan
06/02/2017

Capo 4

G C G
Put that car in drive
Put that car in drive

Am C
Don't stop 'til we arrive, even if it takes all night
G C G
Baby put that car in drive

Crank up the stereo
Crank up the stereo
Sing along to the songs we know, ain't a soul that can tell us no
So baby, crank up the stereo

Am
So what would you say if we got together
G
Took all of our things and took off to wherever
Am C
I'm thinking no matter what the world may say
G C G
The view ain't gotta stay the same

This ain't just another day
This ain't just another day
Where the hours slip away, before we slowly fade to grey
No this ain't just another day

We don't need to worry about what other people are gonna say tonight
We'll count up all the memories as we sit together in the morning light
