

We Don't Have To
By Andrew Sullivan - February 9, 2017

C

Feels like we're going down
Words thrown all around
The time's now to throw it out

F

Everything we'd like to say

C

Before it's too late

I'm not seeing why you've gotta start a fight

F

But we're gonna get it right nothing will stand in our way

C

Not even our pain

G

F

It's moments like this when I can't help

But wonder if

G

F

The choices I've made were right

C

F

You and I, We keep living separate lives

Am

F

G

You know we don't have to, You know we don't have to

C

F

We're throwing away, everything we have made

Am

F

G

You know we don't have to, you know we don't have to

Let's just a breath, we've got nothing left

There ain't a single word left here that we need to speak

And I'm feeling weak

Before the end of the night we'll look into each others' eyes and

Start to apologize for our harshest critiques

We'll stop this disease

It's moments like this when I can't help But wonder if

The words that I've said were right
