

Young Love
By Andrew Sullivan
10/03/2013

E G#m F#m A (B)

VERSE

You talk to me so early, I
I love starting every day with you
you talk to me like I'm the best friend that you've ever had

and no other woman could love me
there's no other woman who could also make me so mad but
it's not all bad, babe it's just part of you

CHORUS

We've got young love
We've got young love

when I come home through that door
you are never more than 10 steps away
you love me like each day we've had was the first

and when all the years wash over me
like the leaves on my driveway in the fall, I
promise my love for you will be standing tall

CHORUS 2x

BRIDGE

C#m B A B
late at night when you're all alone
i'll pick you up just sing this song
the night is always darkest before the dawn

C#m B A Am

close your eyes and listen to me
sing along baby you'll believe
this song is gonna help you see
this song is gonna help you see
