Where We Belong by Andrew Sullivan - 2012

С C/B Am Let's put the world on hold tonight

A disconnected heart isn't right

We gotta let the fire grow inside

And who cares what the world wants us to be?

Am

They don't care about you and me

Love right now I hope you'll see

CHORUS

C C/B Am G I believe that we're right where we belong

Though sometimes it's hard to see it

C/B Am G F and I believe that we could have it all

If we just give our hearts what they need

(same chords as verse 1)

I don't wanna spend another night online I wanna see our love shining bright like the stars in the midnight sky You and I shouldn't wait another day To see all the plans that we have made come to life so now girl I say

BRIDGE

Bb

We've seen better days

But we know perfect ways

To let our deeper love burn through

Вb

All we have to change

Is how we live today

And baby I believe in you, baby I believe in you
